

Spotlight on KC Ready 4s' Speech Pathologists

Kalamazoo County Ready 4s promotes and supports high-quality learning environments for all children! In addition to the fabulous classroom teachers that your child works with on a daily basis, we also have a team of fantastic professionals that provide ongoing support and guidance to the teachers. We thought we would shine the spotlight on our GREAT team and the work they do!

We're pleased to introduce our Speech Pathologists **Heather Hudson and Jayne Trombley** who are a part of KC Ready 4s' wonderful **high-quality team!**

SPEECH PATHOLOGISTS

Our Speech Pathologists work in partnership with Western Michigan University's Department of Speech Pathology & Audiology. Along with the WMU graduate students they offer speech, hearing and language screenings to children attending one of the high-quality programs supported by KC Ready 4s. They help strengthen and support literacy development as well as supervise Western Michigan University's graduate students with their initial work for classroom improvement.

Heather Hudson, MA, CCP-SLP, MI-Ln

I aspire to plant a seed of knowledge and joy regarding the importance of supporting children's ability to communicate and improve confidence in expressing themselves. My hope is that I will continue to use the skills I have obtained through my profession to support and encourage positive learning opportunities for our youngest students.

Jayne Trombley, MA, CCP-SLP, MI-Ln

My philosophy is to be an example of acceptance, joy and curiosity for any child I encounter. Even though I'm a retired educator and speech/language pathologist, my energy and commitment for helping young children and their families is endless. I strongly believe that speech and language development along with KC Ready 4s' high-quality pre-K classrooms can be a great launching pad for future school success for all children. I love being a part of that process!
